1. Introduction

Cuatrecasas Legal, S.L.P. is a Spanish trading company with registered office at Avenida Diagonal, 191 - 08018 Barcelona, Spain, holder of tax identification/VAT number ESB59942110, registered in the commercial registry of Barcelona, sheet B-23.850 and with website www.cuatrecasas.com.

This company is the dominant entity of a group that operates as a law firm through various companies established in the different countries where there are offices (hereinafter, “**Cuatrecasas**”).

Cuatrecasas is aware that the legal sector is undergoing a change process driven by factors such as technology, and it wishes to take part in that change process with a new impulse to innovation.

Cuatrecasas is the first law firm in Europe to offer an environment for the production and training of new leaders and innovative teams, aimed at accelerating and developing technology-based business projects in the **legaltech**, regtech and dealtech and in other areas with a **high legal complexity**, as well as projects offering solutions for digitizing business.

This document sets out the terms and conditions for the call for applications for the tenth Cuatrecasas Acelera accelerator program to be held in 2025-2026 (“Call”).

Submission of an application for admission to the Cuatrecasas Acelera program means an understanding and acceptance of the terms and conditions.

Accelerator program

The selected projects will form part of an accelerator program combining individual and group sessions with a highly practical focus. Participants will also contribute to open sessions that will (i) address contents relating to the business model, and (ii) foster networking between players in the entrepreneurial and legal ecosystem, thanks to the legal and business mentors.

2. Objective

Cuatrecasas Acelera aims to achieve the following objectives:

- **To innovate in business law** by generating new processes, systems and products that help develop the supply of legal services in the area of business law.
- **To innovate in the value proposal for clients and accompany them during their transformation**, by being aware of the new trends in the sectors in which they operate and innovating in the supply of legal services.
- **To support, motivate and direct entrepreneurs**, so that they can turn their ideas into successful businesses, enhancing their reach, growth and scalability.
- **To work with the entrepreneurial ecosystem and develop an innovation culture** in the firm through regular feedback with the ecosystem.
- To become **a talent magnet**.
- **To create value in the environment** through a particular methodology for innovation that the beneficiaries can assimilate, systematize and replicate throughout their professional careers.

3. Target sector

For the tenth Acelera program, we are looking for Spanish, Portuguese and LATAM innovative startups that (i) are already incorporated, (ii) have not been active from more than five years (early and growth stages), (iii) have at least one functional minimum viable product, (iv) have a solid work team, and (v) show that their solution is innovative and market oriented.

To address some of these challenges, the project must offer an innovation technology-based solution that addresses a relevant legal challenge arising from its own business model or the application of disruptive technologies. Particularly, this edition will focus on fintech, healthtech, energy, insurtech, and deeptech projects.

4. Eligibility requirements

Projects that meet the requirements below can take part in the process for selecting eligible projects for the Cuatrecasas Acelera accelerator program:

- The project must meet the startup definitions defined in the section entitled “Target sector.”

- The individual promoting or representing the project must be of legal age with capacity to enter into agreements. Anyone who is an employee, director or partner of Cuatrecasas, or is involved in a commercial relationship for supply of services to Cuatrecasas at the time of the application will not be eligible.
- The company concerned in the project must be legally incorporated and not affected by any legal cause for wind-up. The partners and the directors of the company cannot be employees, directors or partners of Cuatrecasas, or be involved in a commercial relationship for supply of services to Cuatrecasas at the time of submitting the application.
- The project promoters cannot apply for admission to the accelerator program for more than one project in the same call for applications, whether acting on their own or with others.
- Any project promoter that has been convicted of an intentional offense under a ruling not subject to appeal will not be eligible.

Any participant that does not initially or subsequently meet those requirements can be excluded from the accelerator program, losing any eligibility for services, with no entitlement to file any claim against Cuatrecasas.

The information supplied by participants when registering for the program must be accurate, and any applicant that submits false, incorrect or incomplete information will lose eligibility for the program, without prejudice to any liability they may incur through such conduct, which the participant will assume in full with no liability whatsoever for Cuatrecasas.

In registering for this program, the participants accept all the terms and conditions set out here.

Cuatrecasas reserves the right to reject or eliminate from the program, without prior notice, any participant who, in the opinion of Cuatrecasas, acts in a fraudulent or abusive manner or contrary to the spirit of the program or to the law, third party rights or good faith, without prejudice to any liability incurred in connection with this conduct, which the participant will assume in full, with no liability for Cuatrecasas. Cuatrecasas will be entitled to terminate the participation of any applicant whose actions (or those of any related person) could damage the reputation or good standing of Cuatrecasas. In addition, Cuatrecasas reserves the right to decline admission of any applicant who, in its opinion, does not respond suitably to the proposed challenges, or due to the number of projects accepted, or for any other reason.

5. Application for admission

Candidates must complete their application for admission to the accelerator program by registering and submitting information through the online form available in the Acelera section of [Cuatrecasas Innova website](#).

Any applications for admission to the accelerator program received or submitted after the deadline specified below will not be considered for admission to the program.

6. Schedule

The milestones and dates to be taken into account for the 2025-2026 call for applications for the Cuatrecasas Acelera program are:

Registration period

The registration period ends on June 29, 2025.

Applications received after this deadline will not be considered.

Selection period

The period for selecting projects will run from the closing date for submitting applications until Mid-September 2025, when the projects chosen to take part in the Cuatrecasas Acelera program will be published.

During that period, the professionals chosen based on the type of projects submitted will pre-select a group of projects that will be called for interviews. Those interviews will be carried out at Mid-September 2025, on dates that will be notified in advance to the pre-selected projects.

Accelerator period

The accelerator program will last for approximately four months. It will start in October 2025 and end in February 2026.

Demo Day

After the accelerator period, the participating projects will be presented in 2026 at “Demo Day.” Entrepreneurs, investors and leading players from the entrepreneurial system will attend Demo Day, and a panel will choose the most deserving project from among the participants in the 2025–2026 Cuatrecasas Acelera program.

Note

Cuatrecasas may change the milestones and dates set out above to optimize accomplishment of the accelerator program. It will notify the participants of any changes by email or by announcing them on the landing page or the platform.

7. Project analysis and selection process

After the submission date, the individuals responsible for pre-selecting the projects will be professionals of Cuatrecasas as well as a committee of external experts chosen based on the type of projects submitted. From the applications admitted to the application process, a maximum of six projects will be selected to participate in the Cuatrecasas Acelera accelerator program.

Project evaluation and selection will be made in two stages: (i) application rating, and (ii) evaluation interviews.

Application rating

Based on the information in the applications submitted on the form on the Cuatrecasas Acelera website, up to 20-25 projects will be selected for the personal evaluation interview stage on the basis of the selection criteria set out on the website.

This rating stage will be carried out in September 2025.

Presentation on “Selection Day”

The pre-selected projects will deliver a project presentation and carry out a demo of the solution on “Selection Day.” Up to 20-25 projects pre-selected during the application rating stage will take part in the selection process.

"Selection Day" will be held online in Mid-September on a date to be notified to each of the pre-selected projects.

Up to six of the projects participating in this stage will be selected for the accelerator program.

The selected projects will enter into a specific agreement for each project to regulate the conditions for their participation in the Cuatrecasas Acelera accelerator program. Projects will only be considered admitted to the accelerator program when they have entered into that agreement.

8. Selection criteria

Application rating

To rate the applications for participation in the program, the professionals evaluating the projects will consider the following criteria:

Project business model and innovation

Value proposal

- The project's marketing model and its capacity to deliver a product or service to the target users, identifying a need that is not well covered on the market.
- The project's economic and social impact, and its international reach.
- In the case of the company selected to participate in pilot development, its feasibility from the standpoint of collaboration and agile short-to-medium-term implementation of the solution by Cuatrecasas, along with its contribution to overall value, will also be evaluated.

Degree of innovation

- Se valorará la innovación del proyecto al ofrecer un producto/servicio nuevo en el mercado, claramente diferenciado y mejorado frente a las soluciones existentes o mediante innovación tecnológica o innovación en el modelo de negocio. En particular se valorará el uso de la tecnología que hace el proyecto, primándose los proyectos que cuenten con una base tecnológica sólida.

Viability

- Consistency between the project's cost structure and its forecast revenues and financial-economic profitability.
- The expected return and additional investment required for the project, which will also require a risk analysis.

Level of development

- Projects must have a demonstrable level of maturity and at least one functioning minimum viable product.
- In the case of the company selected to participate in pilot development, experience in product co-development, e.g., working with universities and other companies; experience as a provider, e.g., has sold consulting services or part of its development to another company; and its reasons for cooperating with a corporation.

Market and sector

Project relevancy

- Priority will be given to projects meeting the three areas identified in the third section of these terms and conditions.

Market potential

- Identification of the customer segments for the project.
- The current and potential market for the project and its purchasing power.

Entrepreneur/promoter team

Suitability of the promoter team

- The experience, qualifications, and technical and management capabilities of the promoter team and its members' knowledge of the industry or sector of the project, or both.

Motivation and interest

- The involvement, commitment and dedication of the promoter team towards the project and its members' capacity for and interest in accelerating the project and carrying it through, and for taking full advantage of the accelerator services offered by Cuatrecasas Acelera.

Evaluation interview

Pre-selected projects will be called for evaluation interviews. This evaluation interview involves the following:

Identification of the problem

- The extent to which the project addresses a problem or need that is not suitably covered for its target users.

Proposed solution

- Whether the value proposal concerned in the project fits the need or problem that it resolves.

Business model and market

- Whether the project is considered viable, sustainable, distinguishable and scalable.

Communication

- Clarity and conciseness of the presentation of the project.
- Promoters' ability to spark and hold the audience's interest when presenting the project.

Motivation to participate in Cuatrecasas Acelera program

- The promoter team's interest in and attitude to the project and the possibilities offered by Cuatrecasas Acelera.

9. Content of the accelerator service and program stages

Subject to the agreements entered into with Cuatrecasas for each project, the selected projects will benefit from the following accelerator services during the Cuatrecasas Acelera program development:

Legal mentoring

At least one Cuatrecasas lawyer will be assigned to each project to act as a legal mentor, accompanying and following up on the project throughout the acceleration period.

Practical group sessions

Practical group sessions will be held to enable the startups to interact, discover synergies and identify common needs. Based on that information and the information provided by the mentors, practical group sessions focused on the startups' interests will be led by professionals from Cuatrecasas and Area101 or other experts. Practical individual sessions with experts will also be organized in areas such as strategic sales, online demand generation and guerrilla marketing.

The accelerator program will hold two bootcamps combining Lean Startup tools and procedures dealing with the conditions, procedures, standards, and indicators required for a client-based approach.

Testing and Venture Client

Some of the selected projects will be able to (i) test their solutions at Cuatrecasas, a law firm with almost 1,000 lawyers and a documentary database containing approximately 30 million documents; and (ii) opt for a venture client model.

Access to ecosystem

The participating startups will multiply their possibilities of attracting clients and financing thanks to the (i) project's increased visibility and acceleration, and (ii) access to an ecosystem of partners as a result of participation in the Cuatrecasas Acelera program.

Corporate image

The selected projects will include the Cuatrecasas ACELERA logo (as it appears in this document) and the expression "Cuatrecasas Acelera participating company" on their websites and other corporate materials.

10. Obligations of the selected projects

The selected projects benefiting from the supply of accelerator services by Cuatrecasas and their promoter teams or partners must observe certain commitments as specified in the agreement to be entered into with Cuatrecasas:

- 1) They must develop and operate the selected project exclusively through the person or company that has entered into the agreement regulating their participation in the Cuatrecasas Acelera accelerator program.
- 2) They must take part in the Cuatrecasas Acelera program in accordance with the rules and instructions given for that purpose by the program managers. They must cooperate with all other Cuatrecasas Acelera projects and take part in the activities arranged within the framework of the accelerator program.
- 3) They must give priority to developing the project and remain as the partners and promoter team linked by contract to the project.
- 4) They must not be linked directly or indirectly to any other person or entity whose activity competes directly or indirectly with the project activity.
- 5) They must transfer to the project on an exclusive basis all the rights to use and exploit any software, document, plan, mock-up, patent, utility model, industrial design, trademark or any other intellectual or industrial property right that the promoter team, partners, employees or associates devise or develop within the framework of the project for the entire world, for the maximum term allowed by law and for their exploitation in any format and mode.

- 6) The selected entrepreneurs and projects must grant access to any documents and information that Cuatrecasas may request regarding the project.
- 7) Attend in person the Demo Day and the two group sessions (Bootcamps) that take place during the program"

All the training activities and individual sessions are compulsory for participants. Any selected project that does not take part in the accelerator program sessions may be excluded from the program.

11. Recognized rights of Cuatrecasas in connection with the program

Participation of the selected projects in the Cuatrecasas Acelera accelerator program will imply recognition of the following rights granted to Cuatrecasas subject to the terms and conditions of the agreement to be entered into with each project:

Image rights

The participants will authorize Cuatrecasas to invite the general or specialist press to cover the activities carried out throughout the accelerator program. All the selected participants will authorize Cuatrecasas to disclose and publish a summary of the projects involved, and also the images and names of the participants in charge of those projects through the internet and in the general or specialist press.

Right of preferential access and testing

In consideration for supply of the accelerator services, on entering into the agreements regulating their participation in the program, the selected projects will grant Cuatrecasas a right of preferential access and testing ("the **Right of Preferential Access and Testing**") for each of the company's services and products (the "**Products**") with the objective of assessing them and, where applicable, using them. Through the Right of Preferential Access and Testing, the company grants Cuatrecasas use rights of the Products that enable it to test and validate the Products before signing up for them.

The use rights will be considered sufficient and reasonable if they meet at least two of the following conditions: (i) two access licenses for systems and applications staff, with unlimited access and permissions; (ii) access licenses for a minimum of 3% of staff to which the Product could be useful, and in no case can there be less than three; (iii) minimum of one year for testing and assessment from the first use.

Cuatrecasas can exercise this Right of Preferential Access and Testing during the term of this agreement and for three years following termination of the agreement for any reason.

The Products are understood to be all knowledge and technology, subject or not to licenses, as well as experimental information, formulas, software, creations, discoveries, know-how, and any information or inventions obtained or developed in the framework of the project.

The requirements for acquiring use rights of the Products will be agreed based on market conditions, and the company will grant Cuatrecasas a minimum discount of 20% of the normal use conditions during two years.

Right to information and tracking of the project

To monitor the project and ensure that full advantage is taken of the Cuatrecasas Acelera accelerator services, during the term of the agreement regulating participation of the projects selected for the program, Cuatrecasas must be informed of the projects' progress through regular delivery of reports on their development.

12. Protection of personal data and intellectual and industrial property rights

Cuatrecasas will process personal data and updates to that, in accordance with this clause.

Cuatrecasas will process the personal data submitted by participants to manage their applications to participate in the Cuatrecasas Acelera program and, with their consent, to inform them and send them communications, including by electronic and similar means, concerning the activities, projects and new developments in the Cuatrecasas Acelera program that might be of interest to them. The legal basis for processing their data is to manage their application to participate in the program and, for sending communications, the consent given by the participants.

Cuatrecasas will only disclose the data when necessary, in particular, to the companies cooperating with or participating in designing and implementing the Cuatrecasas Acelera program. In this regard, your data will be communicated to the company Goodthinking Development and Design S.L. (“Area101”), an external consultant involved in the evaluation of applications.. Cuatrecasas can disclose your data to the entities in its group listed on the www.cuatrecasas.com website for the same purposes mentioned above. In any case, your data will be processed subject to a level of protection in accordance with applicable data protection regulations and will not be subject to automated decision-making.

After the selection process, Cuatrecasas will keep the data submitted by participants to give the candidates consideration in future programs. Participants can revoke their consent to receiving commercial communications at any time.

If you supply third parties’ personal data, you warrant that you have informed those parties of the content of this clause before supplying them, and you are personally liable to Cuatrecasas for any harm and loss arising in the event of breach.

Under current law, you may exercise your rights of access, rectification or deletion of data, request that processing be restricted, oppose it or request data portability, at any time by sending written notice to Cuatrecasas, Avenida Diagonal 191, 08018 Barcelona or by sending an email to data.protection.officer@cuatrecasas.com, clearly indicating the right you wish to exercise and attaching a copy of your national identification document or similar document proving your identity. You may also file a claim with the Spanish Data Protection Agency.

By submitting their applications for admission, the project promoters warrant that:

- The projects are the original work of their authors or that they are fully entitled to make use of them, or both.
- Through their participation, the participants accept that the work and creations resulting from the projects conform to Royal Legislative Decree 1/1996, of April 12, approving the Intellectual Property Act as amended, regularizing, clarifying and harmonizing the applicable statutory provisions in that regard.
- Where the projects are the unified outcome of the cooperation of several participants, the project will be treated as a cooperative work under article 7 of the Intellectual Property Act, with the resulting rights belonging to all of them as co-authors.
- The participants authorize Cuatrecasas to publish a summary of the projects on its official websites and they accept that visitors to those websites will have access to that information in accordance with the conditions for use of those websites.

- The participants authorize Cuatrecasas to (i) use the names and titles of their projects, subject to no time limit, for mention on the website or for any other acts or events related to Cuatrecasas Acelera, and (ii) mention those projects in the historical archives and any media of Cuatrecasas and the Cuatrecasas Acelera program.
- Cuatrecasas makes no claim to ownership of the information offered or any industrial or intellectual property that it may contain. Participants do not assign any industrial or intellectual property rights resulting from the projects to Cuatrecasas.
- The participants accept that no provision of this document authorizes or entitles them to make use of any industrial property owned by Cuatrecasas, such as, in particular, trademarks or logos, or any others the firm may own.
- If a participant requires access to Cuatrecasas's documentary database or knowledge database (e.g., standard agreements, data), that access will be conditional on the participant's acceptance of the corresponding confidentiality agreement established by Cuatrecasas.

13. Reservations and limitations

This document establishes the conditions and procedure for selecting the projects that will take part in the 2025-2026 Cuatrecasas Acelera program. The terms and conditions set out in this document for the Cuatrecasas Acelera program do not give rise to any obligation or contractual link on the part of Cuatrecasas or the project promoters that submit applications for admission to the program beyond what is provided in these specifications. The projects selected to take part in the 2025-2026 Cuatrecasas Acelera program will enter into individual agreements with Cuatrecasas to regulate their participation in the accelerator program and in the conceptual pilot development. Projects will only be considered admitted to the program after entering into the agreement with Cuatrecasas.

The project promoters that submit applications for admission to the program will assume all the expenses arising from their participation in the selection process. Likewise, after entering the program, the selected participants will assume their own expenses incurred for travel to and accommodation at the place where individual sessions, group workshops and any other program activities are held, and Cuatrecasas will not bear any of those expenses.

Cuatrecasas will assume the costs of all the activities included in the accelerator program.

Cuatrecasas reserves the right to cancel or suspend this program or to change any of its terms, notifying participants by email or on its landing page. Any cancellation, suspension or change

will not give rise to entitlement to any claim from the promoter teams of the projects that have submitted applications for admission to the program.

Once the accelerator program is under way, Cuatrecasas reserves the right to exclude any project whose representatives or promoters do not follow the conditions to participate in the program, as established in their respective agreements for participation.

14. Queries and request for clarification

For any queries or requests for clarification relating to the accelerator program or submission of applications for admission, interested parties can contact Cuatrecasas at the following email address: innova@cuatrecasas.com
